

The Perfect Winter Solution for Ultra Low Sulfur Diesel and Biodiesel

For almost 20 years ValvTect Petroleum has been the leading supplier of antigel/deicer diesel additives to the nation's fuel distributors, truckstops, railroads and fleets. While other suppliers are just "getting ready for the game" ValvTect has had effective antigel/deicer products in the market for several years that are specially formulated for ultra low sulfur diesel and biodiesel.

With ValvTect's Diesel Guard® Antigel/Deicer additives you receive:

- The industries most advanced technology
- Preseason and inseason test data and technical support
- Diesel Guard co-brand marketing support programs
