

Two Great Products Now Are One!

The only EPA registered diesel additive that combines a biocide with a multi-functional diesel additive. The perfect solution for ultra low sulfur diesel and biodiesel problems; such as bacteria, algae, excess water, sludge, filter plugging, injector wear & deposits, poor fuel economy and unstable fuel.

- Prevents bacteria and algae growth
- Removes excess water
- Stabilizes fuel for up to two years
- Lubricates and cleans-up injector deposits
- Prevents filter plugging
- Greatly extends filter life
- Improves fuel economy
- Reduces harmful exhaust emissions
